## 96 Henry Street Tighes Hill NSW

3  1 

Enter the vast hallway and the two main bedrooms are off to your right. They are huge bedrooms. Like the rest of the home they have polished boards and high ceiling. They both have modern ceiling fan. Whilst they don't have built-ins, there is an antique style wardrobe, some drawers and bookcase available for your use.

Head through to the spacious lounge room area with a mantle for decoration but gas bayonet for heating.

Through to the large open kitchen with loads of storage space, gas cooking and dishwasher. There is room here for a separate dining area or study nook. It has glass bi-fold doors and hidden screens, leading to an alfresco covered entertaining area.
